

Taiwan Rapid Innovation
Prototyping League for
Entrepreneurs

Match-making platform to connect global hardware start-ups with reliable hardware partners in Taiwan

- ▷ Government initiative (Department of Industrial Technology, Ministry of Economic Affairs)
- ▷ Executed by ITRI (Industrial Technology Research Institute)
- ▷ Funded on April, 2015

“You can't spell hardware without the hard part.”

Manu Kumar, K9 Ventures

75% OF THE CROWDFUNDED
PROJECTS ARE **DELIVERED LATE**

The **larger** the project, the more
likely it will be delayed and the
longer it will be delayed.

Small Choir VS Orchestra

Build Hardware Needs Full Stack of Engineers, but Start-up Usually Starts from Small Team

 Wrong Manufacturers Not Familiar with Costs
Behind Prototype Unproducible

Hardware Suppliers are Your Most Important Partners

- ▷ Not service providers. They are partners who control cost/schedule/quality in the hope for next big product.
- ▷ Early involvement gives you feasibility to develop final design.
- ▷ Long term relationship

Why Taiwan?

Comprehensive Ecosystem

- ▷ Industry clusters
- ▷ Startup ecosystem
- ▷ Key leader on electronics supply chain

- ▷ Match-making platform for hardware startups

- ▷ Healthy ecosystem for innovation & startups & push IoT industry

Comprehensive Supply Chains & Industrial Clusters

Hsinchu

- IC manufacturing
- Optical
- Bio technology

Taichung

- Semiconductor and Optical
- Bio technology
- Automation

Changhua

- Green energy
- Surface treatments

Tainan

- Optical
- Automobile parts
- Mechanical automations

Kaohsiung

- Petrochemical
- Boat components and assemble
- Metal enhancement
- IC, Optical, Communication and Green energy

Nangang

- IC design
- Digital content
- Bio technology

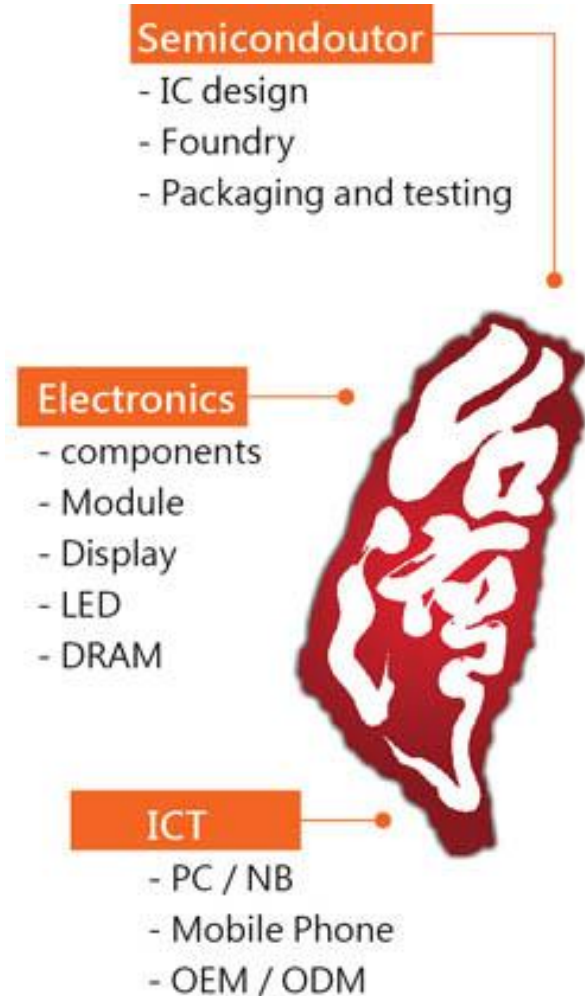

1.5 hrs by high speed rail

Ranked **#1** and **#2** in
“State of cluster
development” in 2013
and 2014 (WEF’s Global
Competitiveness Report)

Key Player of Global Electronics Industry Supply Chains

- ▷ IP Protection
- ▷ High quality & customization

Friendly Startup Ecosystem
